

Standard Operating Procedure (SOP)

Patient Admission Process

For Hospital Operations & Insurance/TPA Coordination (Medi Assist Compatible)

Document Type: Admission Management SOP

Version: 1.0

Effective Date: 01-Jan-2026

Department: Admissions / Front Office / Insurance Desk

Review Frequency: Annual

1. Purpose

To establish a standardized process for admitting patients into the hospital while ensuring:

- Accurate patient registration
- Regulatory compliance
- Timely clinical assessment
- Insurance verification
- Cashless authorization initiation
- Proper documentation
- Positive patient experience

Patient admission serves as the formal entry point into inpatient care and must include administrative, clinical, and financial validation before treatment proceeds, except in emergency situations.

2. Scope

This SOP applies to:

- Front Office
- Admission Department
- Insurance / TPA Desk
- Nursing Department
- Duty Medical Officer (DMO)
- Treating Consultants
- Billing Department
- Medical Records Department

3. Types of Admissions

Admission Type	Description
Planned Admission	Scheduled hospitalization
Emergency Admission	Immediate admission due to urgent medical condition
Day Care Admission	Procedures requiring short stay
Surgical Admission	Admission for planned surgery
Maternity Admission	Obstetric care and delivery
Transfer Admission	Patient transferred from another facility

4. Roles and Responsibilities

Front Office Executive

Responsible for:

- Patient registration
- Identity verification
- Document collection
- Admission form completion

Insurance Coordinator

Responsible for:

- Policy verification
- Cashless initiation
- TPA coordination
- Pre-authorization submission

Duty Doctor

Responsible for:

- Medical assessment
- Admission recommendation
- Initial treatment orders

Nursing Team

Responsible for:

- Bed allocation coordination
- Initial patient assessment
- Admission checklist completion

5. Admission Workflow

6. Planned Admission Procedure

Step 1: Patient Arrival

Patient presents:

- Admission advice from consultant
- Referral letter (if applicable)

- Insurance card
- Government-issued ID

Examples:

- Aadhaar Card
- Passport
- Driving License
- PAN Card

Step 2: Registration

Create or verify:

- Unique Hospital Identification Number (UHID)
- Existing patient record
- Demographic information

Capture:

- Full Name
- Date of Birth
- Gender
- Mobile Number
- Address
- Emergency Contact

Step 3: Identity Verification

Mandatory verification:

- Name matching
- Photo identification
- Insurance card validation

Any discrepancy must be escalated before admission.

Step 4: Consultant Admission Order

Admission cannot proceed without:

- Consultant recommendation

- Admission diagnosis
- Planned treatment

The admission note should document the reason for admission, patient status, clinical findings, and initial care plan.

Step 5: Bed Allocation

Admission Department shall:

- Verify bed availability
- Assign ward category
- Confirm room eligibility under insurance

Categories:

- General Ward
- Semi-Private
- Private Room
- Deluxe Room
- ICU
- HDU

7. Insurance & Cashless Admission Process

Eligibility Verification

Insurance Desk shall verify:

- Policy status
- Coverage period
- Sum insured
- Network eligibility
- Waiting periods
- Exclusions

Required Documents

Collect:

- Insurance Card

- Government ID
- Employee ID (if corporate policy)
- Doctor admission advice

Cashless Intimation

Submit to Medi Assist:

- Pre-Authorization Form
- Clinical Notes
- Investigation Reports
- Cost Estimate

Timeline:

- Within 2 hours of admission request

8. Emergency Admission Procedure

Definition

Admission required to prevent:

- Loss of life
- Organ damage
- Clinical deterioration

Examples:

- Stroke
- Heart Attack
- Major Trauma
- Respiratory Failure

Emergency Workflow

Immediate Treatment

Medical care must begin immediately.

Insurance approval shall not delay treatment.

Registration

Registration should be completed after stabilization if necessary.

Insurance Notification

Insurance desk must notify TPA:

- Within 24 hours of admission

9. Admission Documentation Checklist

Administrative Documents

- Admission Form
- Consent Form
- Patient Rights Acknowledgement
- Identity Proof
- Insurance Documents

Clinical Documents

- Admission Note
- Initial Assessment
- Consultant Orders
- Medication Orders
- Nursing Assessment

Admission documentation forms the baseline medical record for subsequent treatment and inpatient management.

10. Consent Management

General Admission Consent

Must include:

- Consent for treatment
- Diagnostic procedures
- Information sharing
- Billing acknowledgment

Special Consents

Required separately for:

- Surgery
- Blood Transfusion
- ICU Admission
- High-Risk Procedures
- Anaesthesia

11. Financial Counseling

Patient shall be informed regarding:

- Estimated treatment cost
- Advance deposit
- Insurance limitations
- Non-payable items
- Co-pay obligations

Documentation of financial counseling is mandatory.

12. Patient Rights & Responsibilities

Patient must receive information regarding:

Rights

- Privacy
- Confidentiality
- Informed consent
- Access to medical information
- Respectful treatment

Responsibilities

- Accurate information disclosure
- Compliance with treatment
- Financial obligations
- Following hospital policies

13. Admission Completion Checklist

Before transferring patient to ward:

Item	Status
Registration Complete	✓
UHID Generated	✓
Identity Verified	✓
Admission Order Available	✓
Bed Assigned	✓
Consent Obtained	✓
Insurance Initiated	✓
Advance Collected (if applicable)	✓
Clinical Assessment Done	✓

14. Key Performance Indicators (KPIs)

KPI	Target
Registration Time	≤ 10 Minutes
Admission Completion	≤ 30 Minutes
Insurance Verification	≤ 20 Minutes
Bed Allocation	≤ 15 Minutes
Documentation Completeness	$> 98\%$
Admission Errors	$< 1\%$

15. Escalation Matrix

Level 1

Admission Executive

Level 2

Admission Supervisor

Level 3

Operations Manager

Level 4

Hospital Administrator

Level 5

Chief Operating Officer (COO)
